
Freedom Road

Ken Zimmerman and Steve Gibson

Dm

Many men walked, many men cried

Many men fought many men died

G Dm

Many men left their faith behind

G F C Dm

To start us walking down freedom road

G F C Dm

And now we're walking down freedom road

Many women struggled through desperate lives

Trapped in a role of servants and wives

Have to wonder how they survived

To start us walking down freedom road

Now we're walking down freedom road

Gm

Sometimes the road is rough and steep

Dm

Sometimes we're barely moving our feet

Gm A7

Sometimes we suffer the darkest defeat

We're following a path others made before

Gandhi and King and so many more

Who brought us here to where we are

Started us walking down freedom road

Now we're walking down freedom road

We can get there together so they say

If we help our neighbor's along the way

We'll be headed towards a better day

We'll all be walking down freedom road

Now we're walking down freedom road

We've come so far but we're not there yet

We've taken on such a heavy debt

Paying the price with blood and sweat and love

<break>

Now we're walking down freedom road

Now we're walking down freedom road
