

Precious Child

Steve Gibson

Played capo 2

G
Precious Child
C G
You are more than what we dreamed of

C G
You brought to us a new love

D
When you were born

G
You're growing fast
C G
Full of wonders and delights
C G
Always reaching for new heights

D
And you will climb

G D G
Climb my child climb

C G
Every hill that you find

C
There are mountains tall

G
And you can climb them all

G D G
So climb my child climb

There's so much more
Than what you see around you
Mysteries abound
Spread your wings

Rise above,
All things trying to confine you
Dream your dreams and you will find
That you will fly

Fly my child fly
Through the blue and cloudless sky
When the storms come along
Remain true and strong
Fly my child fly

Listen close
To the music all around you
Nature will astound you
With its sounds

And there is a song
That is deep inside us all
Let it rise and feel its call
And you will sing

Sing my child sing
Know the joy that music brings
For your world and your soul
It can make them whole
Sing my child sing

Bridge:

C G
Use what you know

C G
As you make your way

C G
But learn something new

D
Every day

Break

You will see
People bent by their hard life
And struggling to survive
In our world

Always give back
Find those who need a hand
Lift them up so they can stand
And you will shine

Shine my child shine
Like a candle in a mine
In a world that's dark
You can be a spark
Shine my child shine
