

**Train Wreck**  
Steve Gibson

**Em**

**There's a freight train running through the  
middle of my house  
It comes in from the north and goes out  
through the south**

**Am**

**Why I'm still livin' here I'm havin' my  
doubts**

**Em**

**There's a freight train running through the  
middle of my house**

**They laid the track while I was away  
My wife signed the papers and gave the  
OK  
She said I'd understand the reason why  
someday  
They laid the track while I was away**

**Am**

**It comes in through the kitchen and runs  
down the hall**

**Em**

**Goes past my bedroom and shoots right  
through a wall**

**Am**

**The windows all rattle and the pictures all  
fall**

**B7**

**It's a wonder anybody gets any rest at all!**

**Every night I try and finish the same damn  
dream  
But the train comes through about 4:15  
And the engineer let's that whistle scream  
Every night I try and finish the same damn  
dream**

**The train's back in the evening at 6:04  
My wife's got a martinis ready to pour**

**She hands them up through the locomotive  
door**

**The train's back in the evening at 6:04**

***Break of Bridge: Am Em Am B7***

**I've been puttin down pennies on the  
railroad track  
Supposed to be for luck, but mostly their  
just flat  
My wife takes them all and she won't give  
them back  
I've been puttin down pennies on the  
railroad track**

**I'm sure my wife is thinkin' about riding  
the train  
She talks in her sleep now and again  
Mostly it's about railroad men  
I'm sure my wife is thinkin' about riding  
the train**

**There's a freight train running through the  
middle of my house  
It comes in from the north and goes out  
through the south  
Every time I hear the whistle a new fear  
sprouts  
There's a freight train running through the  
middle of my house  
There's a freight train running through the  
middle of my house  
There's a freight train running through the  
middle of my house**
